

# *Green Connections* 2012 Application Form

**Directions:** Please complete this form in its entirety. Information provided on this application will be used to create a partnership between a watershed school and a NYC school. Green Connections staff will assign one watershed school and one NYC school to a partnership.

If you already know which watershed school or NYC school you would like to partner with, teachers from the partnering schools can submit a joint application, but both schools must submit their school calendar, support letter from their administration, and a statement of interest.

**Please Note:** In an effort to build stronger, more effective upstate and downstate partnerships in *Green Connections*:

- partnerships must consist of teachers who have attended the Watershed Forestry Institute for Teachers
- preference will be given to applications that demonstrate an existing relationship between watershed and NYC schools and teachers, and mutual interest in partnering for the 2012 program season, and
- preference will be given to 4-8<sup>th</sup> grade teachers. 9-12 grade teachers can be selected, but teachers will be expected to work with Catskill Center staff to modify lesson plans

Please type your answers:

**Your Name** \_\_\_\_\_

**School Name:** \_\_\_\_\_

**School Address:** \_\_\_\_\_

**School Phone Number (with Area Code):** \_\_\_\_\_

**School Fax Number (with Area Code):** \_\_\_\_\_

**Number of students participating in program?** \_\_\_\_\_

(\*Please note that the bus provided for the field trip holds 50 people, including chaperones.)

**Have you participated in Green Connections before?** Yes    No    **If yes, when?** \_\_\_\_\_

Please fill out the following if you are completing one application for two partnering schools.

**Partnering Teachers Name:** \_\_\_\_\_

**Partnering School Name:** \_\_\_\_\_

**Partnering School Address:** \_\_\_\_\_

**Partnering School Phone Number (with Area Code):** \_\_\_\_\_

**Partnering School Fax Number (with Area Code):** \_\_\_\_\_

**Number of students participating in program?** \_\_\_\_\_

(\*Please note that the bus provided for the field trip holds 50 people, including chaperones.)

**Have you participated in Green Connections before?** Yes    No    **If yes, when?** \_\_\_\_\_

**Have these two schools partnered together for Green Connections before?** Yes    No

Please Complete the Following for EACH Teacher who will participate (if filling out for two partnering schools, include teachers from both schools):

Name	School	Home Address	Home Phone Number	Email Address	Grade Taught	Subject(s) Taught	Have you attended (WFIT)?	What year did you attend WFIT?

**Communication:**

Communication between students is a key component of Green Connections, as one of the primary goals for this program is to build relationships and understanding between students living at opposite ends of the water supply system.

It is expected that students in partnering schools will have open, on-going communication with each other throughout the entire Green Connections program. This includes the classroom portions of the program as well as on the field trips. Communication is expected to be balanced between social, informal interaction (such as personal letters or emails) and more structured sharing pertaining to the educational aspects of the program (for example, sharing student work via digital photographs, video tours of the school and local neighborhood, or video conferencing to share results from a research topic related to the watershed).

What resources does your classroom and/or school have access to that would enhance communication opportunities for students (computers, video conferencing capabilities, video recording equipment, internet access, access to social media, etc)?

Available Resources for Communication	Successful Experience Using? Y/N

During the Kick-off meeting on January 12, 2012, you and your partnering school will create your communication plan for Green Connections. Describe your ideal plan which should include at least three communications; an introduction of the students, a mid-program contact, and a closing communication. \_\_\_\_\_

---

**Field Trip Planning and Management:**

How many field trips have you planned for students? \_\_\_\_\_

Green Connections field trips require 1 chaperone/10 students.

What is an ideal field trip for your students and your partner students when they visit your city? What watershed/water related forestry/NYC water supply resources does your

community/neighborhood have (parks, education centers, museums, reservoirs, water supply structures, in-class speakers, etc.) that might help your visitors learn about local water resources?

**Time and Curriculum Requirements for Participation in *Green Connections*:**

Participation in *Green Connections* is an extremely rewarding experience for teachers and students alike. Lessons and activities are designed for exploring and celebrating the watershed and the New York City water supply system. Relationships develop along with an understanding of how similar people live in very different physical, yet intertwined, environments.

Participation is also a big responsibility. Please carefully consider the time commitments, dedication and expectations described in the following section. Your signature documents that you will follow the listed requirements.

Requirements

The 2012 *Green Connections* program requires all selected teachers to:

1. Attend a kick-off meeting on January 12, 2012.
2. Attend a wrap-up meeting in June. Date determined at January 12<sup>th</sup> meeting.
3. Communicate at least three times with partnering school.
4. Teach the 12 provided lessons that address specific aspects of the watershed. (Topics include: the NYC drinking water supply system, protecting drinking water supplies upstate and downstate, watershed protection and open space, forest management in the watershed, and the history and culture of people in the watershed and NYC.)
5. Help modify the lesson plans (originally written for 4-8<sup>th</sup> grades) for your students if you are a 9-12<sup>th</sup> grade teacher selected for this program. Catskill Center staff will be available to help modify any lessons.
6. Complete a brief (5 minute) online survey that evaluates each lesson from your perspective, and describe the educational outcomes.
7. Have a discussion with your school administrator to ensure you have their support for the program.

By signing this, I agree to complete the above requirements and fully participate if selected for the Green Connections Program.

### **Attachments**

1. Please attach a written letter in support of your application from an administrator at your school. If you are submitting one application for two partnering schools, there must be a letter from an administrator in both schools.
2. Attach a copy of your school calendar, complete with required in-school testing dates, holidays, prior commitments, in-service days, etc. Include a calendar from both schools if applying as a partnership.

A total of 4 partnerships (8 teachers or teams of teachers) will be selected for participation in *Green Connections* for 2012. Four teachers or teams will be from the Catskills or the East of Hudson watershed, and four teachers or teams will be selected from New York City. *All selected teachers will be required to attend a Kick-off meeting on **January 12, 2012**.*

Thank you for your interest in this program.

**Please return (or fax) the completed application form along with your school calendar, including test dates and prior commitments and a letter of support signed by your administration by December 2, 2011 to:**

Katie Palm, Director of Education  
The Catskill Center for Conservation & Development  
P.O. Box 504  
Arkville, NY 12406
