

Watershed Agricultural Program Guideline

1.1.04

URGENT THREATS TO WATER QUALITY

Urgent threats to water quality requiring implementation prior to the completion of a whole farm plan will be approved by the Executive Committee.

1. Farms shall be signed up with the Watershed Agricultural Program for at least six months prior to being eligible for pre-plan implementation.
2. Situations that qualify for pre-plan implementation will generally include accidents and natural disasters. Threats to water quality resulting from willful mismanagement may not be eligible for pre-plan implementation.
3. Implementation prior to completion of a Whole Farm Plan should be kept to a minimum and generally be compatible with the future plan.
