

# CLEAN SWEEP - 2022

## Business & Municipal / CESQG

### At-Cost Rate Schedule

Product	Unit Price	Product	Unit Price
<b>Aerosols</b> cleaners, solvents, paints	\$1.75 / lb	<b>Ballasts</b>	\$0.75 / lb
<b>Antifreeze</b> Solid Waste Management Center accepts up to 5 gallons of uncontaminated antifreeze	\$3.00 / gal	<b>Batteries</b> Lithium, Zinc, Mercury	\$9.00/lb
<b>Corrosives</b> sodium hydroxide, ammonia, developer, phosphoric acid, muriatic acid	\$6.00 / gal	<b>Alkaline, Nickel, Cadmium</b>	\$1.00 / lb
	\$2.00 / lb		
<b>Flammable Liquids</b> gasoline, kerosene, 2 cycle mix, solvents, thinners, brake fluid, lighter fluid, acetone	\$5.25 / gal	<b>Capacitors</b>	\$3.00 / lb
<b>Motor Oil</b> Bring gas & oil mix to CLEAN SWEEP Solid Waste Management Center accepts up to 5 gallons of uncontaminated motor oil	\$5.25 / gal	<b>Fluorescent Straight Bulbs</b> DO NOT BREAK BULBS Keep bulbs in original packaging when possible	\$0.60 / lf
<b>Oxidizers</b> pool chemicals, hydrogen peroxide, sodium hypochlorite	\$6.00 / gal	<b>Fluorescent U Bulbs</b> DO NOT BREAK BULBS Keep bulbs in original packaging when possible	\$0.50 ea
	\$2.25 / lb		
<b>Pesticides</b> farm and garden herbicides, fungicides, insecticides, arsenic, Captan, Carbaryl, Pyrethrins, Malathion, DDT	\$7.50 / gal	<b>HID Bulbs</b> DO NOT BREAK BULBS Keep bulbs in original packaging when possible	\$1.50/ bulb \$6.00/ fixture
	\$3.00 / lb		
<b>Poisons</b> mercury, potassium chloride	\$7.75 / gal	<b>UV Germicidal Bulbs</b> DO NOT BREAK BULBS Keep bulbs in original packaging when possible	\$2.00 ea
	\$3.50 / lb		
<b>Shop Rags &amp; Floor Sweepings</b>	\$2.00 / lb	<b>Latex Paints &amp; Finishes</b> consolidate cans of water-based paints & finishes	\$3.50 / gal
<b>Unknowns</b>	\$7.50 / gal	<b>Oil Based Paints &amp; Finishes</b>	\$3.50 /gal
	\$3.50 / lb	<b>Sharps &amp; Syringes</b> lancets, needles, syringes	\$20 / gal

**Q: IS YOUR BUSINESS / MUNICIPALITY ELIGIBLE TO PARTICIPATE IN CLEAN SWEEP?**

**A: YES, IF YOU QUALIFY AS A CESQG GENERATOR.**

***Generator Status***

A Generator's "status" is defined by the type of hazardous waste created and the quantity of waste that is generated and stored onsite. There are three Generator statuses: Conditionally Exempt Small Quantity Generator (CESQG), Small Quantity Generator (SQG) and Large Quantity Generator (LQG). **CESQG generators may participate in CLEAN SWEEP.**

***Hazardous Waste Weight:***

One criteria for determining a Generator's status is the weight of hazardous waste they create over time. It is important that container weight and Universal Waste weight is NOT included in this total.

***CESQG: Conditionally Exempt Small Quantity Generator:***

A generator is a CESQG if, in a calendar month:

They generate no more than 220 pounds of hazardous waste, and

They generate no more than 2.2 pounds of acute hazardous waste, and

They generate no more than 220 pounds of material from the cleanup of a spillage of acute hazardous waste

**AND**, at anytime:

They store no more than 2,200 pounds of hazardous waste, and

They store no more than 2.2 pounds of acute hazardous waste.

***A Generator that is a CESQG:***

Does not need to acquire an EPA RCRA ID Number,

Does not need to use a Hazardous Waste Manifest form, and

Does not need to submit an Annual Report.

While the rate of hazardous waste generation may not be controllable, the amount of hazardous waste stored onsite is controllable. Businesses should keep their waste shipments frequent enough to avoid accidentally becoming a more regulated status, due to the amount of hazardous waste stored onsite. **A CESQG that stores more than 2,200 pounds of hazardous waste is no longer a CESQG, but is now a Small Quantity Generator which requires the use of an EPA RCRA ID Number and Hazardous Waste Manifest form.**

## *CESQG Conditionally Exempt Small Quantity Generator Certification*

I hereby certify that I am a generator of hazardous waste within the State of New York and that because of the small volume of hazardous waste generated and/or stored, I qualify for conditionally exempt small quantity generator status.

I understand that in order to qualify for conditionally exempt small quantity generator status, I must meet both of the following conditions:

1. Generate less than 1 kg/month (2.2 pounds) of acute hazardous waste (as defined by 6 NYCRR Part 371), and never store more than this amount on site at any time; and
2. Generate less than 100 kg/month (220 pounds) of all other hazardous waste (as defined by 6 NYCRR Part 371), and never store more than a total of 1000 kg (2000 lbs) at any one time.

I further understand that if, in the future, I exceed the quantity limitations described above, I will become subject to additional regulation as a hazardous waste generator and will no longer be eligible to participate in this type of collection program. I certify that I have the authority to make these statements on behalf of my farm, municipality or business.
