Nutrient Management Intern Job Description

The Watershed Agricultural Council (WAC) Nutrient Management Intern will assist the Nutrient Management Team in serving farms within the New York City watershed. The Intern will be exposed to a nationally recognized Whole Farm Planning Program and be able to observe Best Management Practice (BMP) implementation. The Intern position works under the direct supervision of the Nutrient Management/Precision Feed Management Coordinator or his/her designee.

Basic Requirements:

- Minimum of high school education.
- Must have own dependable vehicle with proof of insurance.
- Must have a valid N.Y.S. driver's license, free of infractions.
- Self-Driven and motivated individual, able to work independently with little supervision.
- Ability to work well and interact with a diverse group of people.
- Must be able to lift a minimum of 40 pounds.

Duties and Responsibilities:

- Collection and submission of soil samples
- Collection of field data.
- Assist planners in collecting information; including but not limited to manure spreader calibration, manure samples, and field data.
- Maintain, in good condition, any equipment associated with the position.
- Act as a liaison between the planning teams and producers as directed.
- All other related duties as assigned.
