B. Operations Report
   i. Payment Request/Financial Status: Ryan provided a brief update to the group on cash status. Balances at 9/30/2021 of cash in bank need to be considered with the monies pledged to cover commitments that include paying back PPP, the Truesdell easement, payback CAT 450, etc. When those commitments are taken into account; WAC will be operating in the negative by the end of the week. We will need to utilize funds that were dedicated to repayment of the PPP and CAT 450 loan in order to continue to operate. Ryan has assurances from Dave Warne that OEA is reviewing payment requests 10 and 26 as expeditiously as possible and is a priority, but the OEA and ACCO functions are out of Dave’s control. Funds are needed by end of next week in order to stay in the black. Fred expressed frustration that WAC continues to be struggling to maintain cash flow even after a year of working to our best ability to right things. Ryan stated that at this point he is working to avoid utilizing the line of credit and is hoping to be able to use the funds that are committed to pay back the PPP loan. Bud pointed out that this puts us into another due to due from situation, as they are monies pledged to other commitments. Ryan clarified that it is not ideal but it is not ‘comingling’ and the PPP funds are not contract funds. Fred asked if ACCO approved the repayment of the PPP funds? Ryan responded that the PPP loan is WAC’s obligation independent of the City, WAC has received payment from the City for the same salary and fringe for the exact term that can be utilized to repay the PPP loan. It is unlikely that WAC would be forgiven for the PPP loan funds, however if the Council determines they would like to ask for forgiveness the application can be submitted at a later date. Bud stated that WAC does not have a reliable source of funding at this time so perhaps forgiveness is a possibility. The intent is to resolve the PPP loan at the beginning of 2022 with the hopes that we should be caught up on payment requests and operating under CAT 503. Karl added that until WAC is strictly on forward request payments, we will run out of money. Amy provided an update on payment request status.
Ryan mentioned that recently the ACCO has suggested modifying CAT 503 to better handle the cost sharing between the contracts, this will take a great amount of time so it is unclear how or when CAT 503 will get registered by 12/31/2021.

The annual payment request for CAT 450 was submitted in August for the endowment account. BWS staff have requested of WAC the status of the repayment of CAT 450, hoping to reconcile that soon.

Dave Cammer asked for total of line h reductions, Ryan stated he would need to get back to the Committee on that.

ii. 44 West Street Lease update: Brian L, Larry H and Tom P have truthed the lease and supporting documents and put together a very brief presentation for Council at the meeting next week. Ryan will be looking for a motion from Council to approve that rate retroactive to April 1, 2021. DEP has confirmed that after the one-time submittal of the supporting documentation, it will not be required to do a monthly reconciliation. Jeff is working with OEA on how to account for FY21 commitments. Dave Cammer asked how WAC will pay that without any cash on hand. Ryan responded that until we receive the next few payment requests we won’t have the cash flow to pay the retroactive amount owed as we will owe approximately $85,000. Fred expressed his frustration with signing a lease that we do not have the money to pay.

iii. Staffing Updates: Ryan reported that Rob Birdsall is officially done at WAC so his tasks are being divided amongst Easement Program Staff and himself.

IV. Chair’s Report – Bud Gladstone
A. Executive Director Position
This will be discussed in Executive Session.

B. Monitoring Report
Nutrient Management Staff have been doing a great job providing presentation of information on the program to ACCO, OEA, and DOI which has been extremely helpful to everyone’s understanding of the complexities of the program. Fred and Bud had a good conversation with Lee Harris who will be an investigator working with WAC on the monitorship agreement. Ryan added that he hopes to have a final copy of the monitorship agreement for Council consideration next week. Dave Cammer asked why no one from DEP attended the Ag Tour. Jeff responded that he has no staff and is completely swamped and could not attend.
